Fraunhofer
IMM

10. November 2020
Chemistry Day

11. November 2020
Energy Day

12. November 2020
Diagnostics Day

NOVEMBER
10-12, 2020

VIRTUAL OPEN HOUSE

2020

NOVEMBER 10-12

3 days - 3 topics:

Our Open House goes online this year! Three highly relevant topics can be expected: sustainable chemistry, hydrogen-based energy supply and personalized diagnostics. Learn more about our projects on power-to-chemicals, synthesis of reactive intermediates, hydrogen technologies or circulating tumor cells in exciting presentations. Visit our virtual booths and discuss live in chat with our experts.

Join us online on:

November 10, 2020

Chemistry Day with topics on flow chemistry for sustainable chemical and pharmaceutical production processes, electrochemistry and photochemistry

November 11, 2020

Energy Day with topics on hydrogen-based local and mobile energy supply

November 12, 2020

Diagnostics Day with topics on microfluidics, liquid biopsy and nucleic acid analysis
